How to add a course to your learning assignments?

1. Click on “VUB LRN courses” on your TEO homepage and go to the tile “Find Learning.” Enter (a part of) the title or click on “Browse all courses” to look for a course.

2. Click on the title of the course for the description. This is a link to all available sessions for this course. Click on a session for more details.

3. Click on ‘assign to me’ to add the course to your learning assignments.

Please note!

➤ Adding a course to your learning assignments does not imply that you are registered for a session.

➤ If there are sessions already available, you don’t need to add the course to your learning assignments. This will automatically be done by the system when you register.
