Legend: an asterix refers to a variable amount of ECTS or credits calculated upon hours

\*: passed courses are in ECTS and fixed per official course depending on the course ID.

\*\* : the credit calculation of these activities is in hours workload investment (1 credit = 24h investment)

\*\*\*: seminars and workshops should be a minimum of 4 hours training and credits may be fixed by the organizers or not.

If not, it will be depending on your workload investment hours recalculated in credits in the PORTFOLIO. Domain specific trainings, e.g., DataCamp, FLAMES Summerschool are based on your total **hours** workload investment of training and assignments and try-outs.

If yes, see e.g. Ethics Week integrity training and DMP -datamgt program-, Entrepreneurship-VUB TT: starter seminars (e.g. 3 credits) are based on a **fixed** amount of credits. Yet, you will need to be input this as a number = *unchangeable* amount of hours. Some organizers do give already the amount of hours in advance e.g. ACTO English courses.
