Hello everyone and welcome to Belgium, we hope you had a safe trip to Brussels!

ESN VUB EhB Brussels

Feb 2021
Who are we?

The Erasmus Student Network is an association where the local meets the international. Our goal is to help international students discover Brussels and Belgium through the eyes of locals and for that we organise a series of diverse activities including city trips, escape rooms, karaoke, parties, and dinners, all depending on what our team of dedicated members has prepared.

Our association is not unique to Belgium but is part of a larger community stretching in over 40 countries. Throughout the year, all volunteers meet up in several conferences organised in different European universities and discuss their experience. There are 18 ESN 'sections in Belgium, of which 5 are in Brussels. We are always looking for new, motivated people to join us, and help us grow the network!
Our local team (VUB + EhB) + 20 people, active on two campuses. The main activity is organizing events for Erasmus students and helping in facilitating their stay in a fun/social manner, on a volunteering basis. Students helping students!
One popular concept that was created in this light is the buddy system. What is a local buddy? A buddy is a local friend (i.e. someone that knows Brussels and VUB) who has decided to become a superhero to help you out. They can help you when you arrive in a new confusing city and don’t know anyone. They are someone you can ask your questions about Brussels and University to!
Why should you do it?

- Join an international environment
- Improve your language skills
- Improve your intercultural skills
- Meet people from all over the world

Do you want to get a superhero?
Register using the link below for ESN VUB EhB Brussels and we will get back to you with your superhero!
Also keep an eye on our FB page for more info regarding the buddy system.
