Travelling to Belgium from outside the European union or Schengen Area ( = non-EU countries )

**STEP 1:** Check the colour code of your country and your country case

- **Green or Orange**
  - You do not need to get tested or quarantine.

- **Red**
  - You may only travel to Belgium for essential reasons or if you have an approved vaccination certificate with full vaccination. Read more here.

  - You HAVE a vaccination certificate recognized by Belgium* or recovery certificate
    - * recognized by EMA:
      - Pfizer/BioNTech (Comirnaty)
      - Moderna
      - AstraZeneca/Oxford (Vaxzevria)
      - Janssen
      - Covishield

    1) Get tested on day 1 or 2 after you arrive in Belgium.
    2) You have to stay in quarantine until the negative result of your test on day 1 or 2.
    3) Get tested again on day 7

  - You DON’T HAVE a vaccination certificate recognized by Belgium or recovery certificate

    1) Get tested within 72 hours before your arrival in Belgium. You must quarantine 10 days
    2) Get tested on day 1 and 7 after your arrival in Belgium.

    The quarantine may be shortened if the second test on day 7 is negative.
